

# Your Stars

By Russell Grant

## Aries (Mar21/Apr20)

This is a good time to overhaul your look. Updating your wardrobe or changing your hairstyle will make you feel more confident. Your new look will also improve your professional prospects. Projecting an image of cool professionalism will attract a slew of successful clients. Are you going on a job interview? Be sure to emphasise your leadership ability. Your prospective employer wants someone who isn't afraid to take charge and make difficult decisions.

## Taurus (Apr21/May21)

A long journey could revitalise you. It's fun feasting your eyes on beautiful artwork, buildings and landscapes. Taking a tour of beauty spots could put you in the path of romance. You may feel a strong pull towards a well dressed assistant. Be sure to ask them on a date, as they won't be in the position to put the moves on you. Do you already have a lover? Be sure to buy your amour a special souvenir of this trip.

## Gemini (May22/Jun21)

Your sex appeal is at an all time high. It's virtually impossible to resist your charms. If you're looking for love, you could find it with someone who has a beautiful home. As a general rule, you shy away from serious commitments. The prospect of making a life with this particular person fills you with excitement. Follow your instincts and pursue a serious relationship. Have you already made a commitment to someone you love? Think about buying a home or relocating to a beautiful city.

## Cancer (Jun22/Jul23)

An intense partnership helps you live in the moment. The days are never boring with this...

## Libra (Sep24/Oct23)

You are a force with which to be reckoned. Nobody had better cross you, or there will be hell to pay. Usually, you're eager to keep the peace. You suspend this rule when someone becomes nasty or abusive. Be ready to issue an ultimatum to a relative who takes advantage of your generosity. The sooner you get some distance from this manipulator, the happier you will be. Stick close to people who appreciate your kindness and consideration. They will keep you sane.

## Scorpio (Oct24/Nov22)

A compliment from you will turn someone's day around. You don't offer praise lightly. When you're impressed by someone's performance, it means something. That's why it's so important to praise people who are doing good work. Think back to a time you were miserable, only to be given encouragement by a respected authority figure. Wasn't your mood transformed? Didn't you feel empowered? Give someone the same gift now, while your words carry extra weight. Your good karma will continue to reverberate throughout the Universe, until it is ultimately returned.

## Sagittarius (Nov23/Dec21)

Your financial situation will dramatically improve thanks to a raise, promotion, or well paid position. Take this opportunity to make some repairs. You don't need to buy a bunch of new stuff. In fact, it will give you more pleasure to rehabilitate old items that still have some life left. If your job has become unbearable, think about switching industries. Working on behalf of a meaningful cause will renew your zest for life. You will want to spend more time on the people and activities you love.

# Cornerstone rock

Regular listeners of The Rock Zone will know that one of my favourite bands is Rush. Well I'm pleased to say that the Prog Rock icons have recently been honoured with their own postage stamp in their native Canada.

The set also features three other Canadian bands, namely The Guess Who, Tragically Hip, and Beau Dommage.

When was the last time you watched the classic spoof rockumentary film "Spinal Tap"? Well, I read with interest this week that creator and band member Christopher Guest says the guys are in serious talks about a reunion next year. Guest is currently promoting his new TV sit-com Family Tree.

Metallica have been working on material for a new album and are expected to head into the studio next year. Danish-born drummer Lars Ulrich said they have now run out of excuses for not doing it.

Former Guns 'n' Roses guitarist Slash will be releasing an album called "Nothing Left To Fear" on October 4. This album is the soundtrack to the first motion picture he has co-produced.

Slash has also announced that his touring band, which features Myles Kennedy and The Conspirators, will broadcast their last summer concert live from the House Of Blues in Las Vegas on July 25.

The Californian heavy metal band Black Label Society will release a new live album and DVD called "Unblackened" on September 23. The performance, which will show the band in a new light, was recorded earlier this

ON TOUR: Cornerstone will be in the studio this Saturday.

year at Los Angeles' Club Nokia. It will feature stripped back versions of some of their well known tracks, making use of pianos and acoustic instrumentation.

Following Lemmy Kilmister's recent health troubles, Motorhead's guitarist Phil Campbell has been reassuring fans that Lemmy is now on the road to recovery.

Campbell also expressed his excitement about Motorhead's new album "Aftershock", telling fans to "prepare yourselves big time".

The album is due out in September and the band hope to be touring again soon.

The Austrian melodic rock group Cornerstone are now on tour in the UK and I'll be catching up with Michael

Wachelhofer and Patricia Hillinger on this Saturday's Rock Zone. I'll also play a couple of tracks from their recent album "Somewhere In America". Cornerstone will be performing at The Railway in Bolton on Tuesday (August 6).

Also on the show this week I have brand new music from Vantage Point, Enchanted Sunday and Arc Angel who sound like a modern mix of Yes and Asia.
